- \* A National Forest Visit is defined as the entry of one person upon a national forest to participate in recreation activities for an unspecified period of time. A National Forest Visit can be composed of multiple Site Visits.
- # Respondents could choose more than one racial group, so the total may be more than 100%.
- † Race and Ethnicity were asked as two separate questions.
- ‡ Non-respondents to race/ethnicity questions were excluded from analysis.
- § Calculations are computed using weights that expand the sample of individuals to the population of National Forest Visits.
