NOTE: The data was not reported for items with fewer than 16 responses.

- * A Site Visit is the entry of one person onto a National Forest site or area to participate in recreation activities for an unspecified period of time.
- # Respondents could choose more than one racial group, so the total may be more than 100%.
- † Race and Ethnicity were asked as two separate questions.
- ‡ Non-respondents to race/ethnicity questions were excluded from analysis.
- § Calculations are computed using weights that expand the sample of individuals to the population of Wilderness Site Visits.
