Pacific Southwest Region (R5)
Pacific Northwest Region (R6)
Southern Region (R8)
Eastern Region (R9)
Alaska Region (R10)

Site Visit* Use Estimate by Proxy† for General Forest Areas

NOTE: Only forests with GFA proxy data are displayed.

* A Site Visit is the entry of one person onto a national forest site or area to participate in recreation activities for an unspecified period of time .

† Proxy is a direct count of items (fee envelopes, ski ticket sales, room rental receipts, sites occupied, traffic counts, etc.) that represents recreation visitation to a Forest Service site or area by an individual, a group, or a vehicle. The forest reported this number and NVUM data was used to convert the proxy count into a Site Visit estimate.
