* A National Forest Visit is defined as the entry of one person upon a national forest to participate in recreation activities for an unspecified period of time. A National Forest Visit can be composed of multiple Site Visits.

† Non-respondents to race/ethnicity questions were excluded from analysis. Calculations are computed using weights that expand the sample of individuals to the population of National Forest Visits. An individual could select multiple categories so this may total more than 100%.

‡ Spanish, Hispanic, or Latino was asked as a separate question from other groups and was not mutually exclusive so race may total more than 100%.
