* A National Forest Visit is defined as the entry of one person upon a national forest to participate in recreation activities for an unspecified period of time. A National Forest Visit can be composed of multiple Site Visits.

† A Site Visit is the entry of one person onto a national forest site or area to participate in recreation activities for an unspecified period of time.

‡ Confidence interval - Defines the upper and lower bounds of the visitation estimate at the 90% confidence level, for example if the visitation estimate is 100 +/- 5%, one would say "at the 90% confidence level visitation is between 95 and 105 visits".
