

## Race/Ethnicity - Wilderness

### Percent of Wilderness Site Visits\* by Race/Ethnicity

| Race †                          | Survey Respondents‡ | Wilderness Site Visits (%)§# |
|---------------------------------|---------------------|------------------------------|
| American Indian / Alaska Native | 8                   | 1.6                          |
| Asian                           | 40                  | 5.4                          |
| Black / African American        | 4                   | 0.4                          |
| Hawaiian / Pacific Islander     | 5                   | 0.8                          |
| White                           | 571                 | 93.1                         |
| Total                           | 628                 | 101.3                        |

| Ethnicity†        | Survey Respondents‡ | Wilderness Site Visits (%)§ |
|-------------------|---------------------|-----------------------------|
| Hispanic / Latino | 34                  | 5.8                         |

| Selected Regions:                       |
|---|
| Pacific Southwest Region (R5) (FY 2020) |

\* A Site Visit is the entry of one person onto a National Forest site or area to participate in recreation activities for an unspecified period of time.

# Respondents could choose more than one racial group, so the total may be more than 100%.

† Race and Ethnicity were asked as two separate questions.

‡ Non-respondents to race/ethnicity questions were excluded from analysis.

§ Calculations are computed using weights that expand the sample of individuals to the population of Wilderness Site Visits.
